

# NARROWS NORTH THE NARROWS from the NORTH on the UPPER CHATTOOGA

DESCRIPTION: The dramatic rock walled sluice, known as “The Narrows” channels the full flow of the Upper Chattooga River just above where Mill Creek joins the river. It is the scenic mid-point turn around for two fine hikes...from the south, starting at Bull Pen Road, and from the north, from Whiteside Cove Road. Replete with bold rockeries, Norton Mill Creek Falls, beach, and an iron bridge, it is an ideal spot for lunch. The three mile (each way) trails from either direction are mostly easy to moderate, with only a few hundred ft of elevation gain...though may sometimes may require a scramble over dead fall.

DIRECTIONS from the North (GPS: 35.03992, -83.13707)  
KKEPA and Walhlla groups both head out at 830AM. Reassemble at Sloan Bridge Picnic Area (on SC107 just north of the Wigington Rd) for a 9:15AM restart from there. From SBPA go 7 mi north on SC107 and 4.3 mi west (L) on Whiteside Cove Rd, past Grimshaw's historic Post Office. Park on the left near Whiteside Church. Facilities at SBPA; none after. Expect a 230P return.
